

CAREER OPPORTUNITY

SPMT Operator/ Laborer

GENERAL

Formal Position: SPMT Operator / Laborer

Department: Mammoet Canada Western Ltd.

Reports to: Superintendent and Operations Manager

Job description:

Mammoet is currently looking for an energetic individual to join the Transport team out of our Edmonton, AB location. This position requires a candidate with an excellent work ethic who can assist the SPMT Supervisor and crews in all daily tasks related to Transport operations according to all Mammoet SHE-Q, business and quality standards, policies and procedures.

Responsibilities (including but not limited to)

- Conduct all business in a professional, respectful manner
- Following typical Mammoet methods, builds trailers using basic hand tools to prepare for heavy hauling
- Ensures all components and the SPMT systems as a whole are in good working condition
- Troubleshoots any issues seen with the trailers which do not conform to typical, approved Mammoet methods
- Assists in planned disassembly of SPMT's following operation
- Assemble, disassemble, set, and configure (mechanically and electronically), operate the SPMT (Scheuerle) in any configuration and in any cargo type / weight, as per manufacture specifications
- Efficiently and safely carry out loading and offloading. This could include lifting, installing, rigging, and weighing large heavy loads
- Operate the SPMT on public roads, on ground, on floating vessel and during load out / load in operations
- Performs the work in compliance with the applicable safety rules
- Check and maintain the efficiency of the SPMT, execute regular maintenance, and execute problem shooting
- Responsible for the daily and weekly control and maintenance of the SPMT
- Participate in pre-job meetings and safety meetings (FLRA's, JEA's, Weekly)
- Reads and understands hydraulic and electrical schematics
- Adjusts trailers to ensure even distribution of weight across all axles, even over rough terrain
- Reports to various work sites as directed by the SPMT supervisor, dispatcher or Operations Manager on – time and ready to operate SPMT equipment or other assigned duties
- Has working knowledge of rigging and lashing and is able to perform basic rigging responsibilities
- Able to independently position equipment in required/desired spots with or without a load
- Assists with jacking, pumping, carriage, winch and weighing work before, during and after move.
- Must meet requirements of the position's Physical Demands Analysis, outlined in Element 10.
- Follows all company, client and site SHE-Q including never disabling any safety devices

- Has basic knowledge of engineering drawings and is able to ensure that loads, loading methods, load securing, and load transport comply with the plan
- Capable of performing and checking rigging and lashing done on the SPMT and the load, to ensure that the move can be performed safely for personnel, load and equipment

About our Company

Mammoet helps clients improve construction efficiency and optimize the uptime of plants and installations. For that purpose, we provide solutions for lifting, transporting, installing and decommissioning large and heavy structures.

Our services are focused on the petrochemical and mining industries, civil engineering, power generation and offshore projects. The logistic challenges in these industries are growing daily. Factors such as remote locations,

harsh climates and a strong emphasis on the environment are constantly driving us towards smarter and safer solutions.

We provide the following services:

- Engineered lifting and transportation services
- Lifting, transportation and installation of modular constructions
- Factory-to-foundation projects
- Plant turnaround logistics
- Salvage and wreck removal
- Decommissioning of onshore and offshore installations
- Trading in new and used equipment worldwide

For over two hundred years, we've been known for the unique capability of our state-of-the-art equipment. But it's the trust of our clients that has brought us where we are today. Their confidence inspires 5,000 Mammoet professionals to give it their all each day and truly make a difference in projects all over the world.

About our region

This will be a full-time position operating out Edmonton, AB. The successful candidate must be willing to travel out of town and potentially to the US.

To Apply
